WOODWARD AND LOTHROP.

ONE of the bright big minds of the bright little ournal, Printers' Ink, has coined an expression the exactly fits the Palais Royal.

The Palais Royal, with its cash business, has to kee perinatingly at it, because its patrons are those who pay promptly, and, therefore, are not confined to any one or two shopping places. The merchants who redit need to make great pretensions only, since their patrons are not likely to investigate as thoroughly.

A CASH business not only enables less profits when selling, but assures advantageous buying. The buyers of the following departments have been in New York all this week in the interests of the Palais Royal and its patrons: Dress Goods, Trimmings, Laces and Embrotderses, Ribbons and Flowers, Nechwear, Jewelry and Fans, Stationery and Not.ons, Hosiery and Underwear. The results of the labors of eight bright minds will be manifested tomorroy

A FIGHT FOR THE HONOR,

Hot Contest to Be Commander of New York's Union Voterans. BUFFALO, N. Y., March 10 .- That the Union Veterans are as good campaigners in politics as in war is being demonstrated here in the contest for officers of the New York state department. Not since Harrison Clark was made commander at Binghamton three years ago in a similar fight by a narrow majority of four votes has there been so hard a struggle for this

office.

The first order of business this morning was the election of officers, and the delegates were promptly in their seats when Commander Freeman called the encampment to order shortly after 9 o'clock. The doors were then closed and the veterans set to work to decide. to them, the momentous question of who will be their commander for the ensuing year. At 1:30 o'clock, with the voting nearly fin-ished, it was estimated that Poole is ahead, Kay a good second and Cleary some distance be-hind.

THE FARMERS' ALLIANCE.

Rumors of a Serious Split in That Organization.

There are rumors of a serious split in the Farmers' Alliance. The southern members of the alliance have never taken kindly to the third party movement and they have been expected to give but little aid and comfort to those who are engaged in the attempt to build up a great people's party. It is claimed now that the St Louis conference, where the third party movement was fully started, was pracked. Charges of that purport are said to be in course of preparation.

Mr. Durborou that they would need \$10,000 more, and that the board of lady managers were fully capable of taking care of their own funds. At her instance Mr. Durborow has drawn up an amendment to the bill, which will be submitted to the committee.

The amendment provides an appropriation of \$10,000 for the expenditures incident and necessary to the discharge of the duties imposed upon the board of lady managers, which shall disbursed upon vouchers approved by the president and secretary of the board of lady managers and by the Secretary of the Treasury. This, if adopted, will preserve the autonomy of the board of lady managers.
